Because of the constraints of their national supermarket chain labeling system, certain items may list milk, butter or whey in their ingredients. The products, if marked HKA – Pareve, are indeed pareve and ok for use. The most common product of this type at Meyer Park is "Buttertop Rolls", which actually contain no butter (when purchased at this store).

At Randall's other stores with kosher bakeries (Sugarland, Memorial): the only pareve products there are the breads (except for the buttertop and buttermilk rolls). All sweets at those stores are dairy.
