Starbucks Coffee Guidelines

Starbucks brand Coffee shops in the Houston area are not under supervision. The following beverages though are considered kosher:

- All varieties of drip coffee
- Latte
- Cappuccino
- Café Americano
- Macchiato (not caramel)
- Tea

The following beverages are not recommended for use:

- Frappuccino
- Beverages with mocha
- Beverages with caramel
- Beverages with white chocolate
- Beverages described as "power"
- Hot cocoa

It is recommended that for flavorings for coffees, the purchaser ask to see the bottle and check for acceptable certification. Suppliers may change over time. [Note: on the most recent set of flavorings at the Starbucks at Randalls – Meyer Park, the OU was on the reverse side label]

All loose pastries are not acceptable. However, there will occasionally be a pre-packaged pastry with an acceptable certification for sale.

Prepackaged dry coffee for sale for home use is generally acceptable – look for an OU on the package.
